

WHAT IS ACCELERATED READER?

Accelerated Reader is a reading scheme that encourages reading and rewards progress.

WHY ACCELERATED READER?

This makes the whole school curriculum more accessible to students with literacy difficulties by improving reading age.

Acknowledging the existing research which shows that reading is essential for progress in all subjects...

❖ HOW DOES IT WORK?

- ❖ **Read a book selected by the student, which is the correct level for them.**
- ❖ Take an electronic Quiz on the book that they have read.
- ❖ Improvements in reading and understanding of texts

As libraries are still closed, you can log into the Sora reading app and select a book of your choice and after reading it, you can attempt a quiz on Accelerated Reader. ***(This will only apply to those students who have a current login with AR) .***
