# Enrichment at Blue Coat

“Living Life in all its Fullness” John 10:10

## Why is enrichment important?

Completing enrichment activities helps you to become a well rounded adult. Being at school teaches us more than just our subject exam curriculum, and enrichment helps to build on this wider learning.

Universities, apprenticeship providers and employers look for students who have gone above and beyond during their time at school and taking part in a variety of different activities demonstrates the type individual you are.

To support you with gaining these experiences, we have an enrichment programme at Blue Coat which is bespoke to you as an individual.

## What do I need to do?

Our enrichment programme is divided into 5 strands:

**Give, Keep learning, Connect, Be creative and Be active.**

This booklet is a starting point for you to identify activities that are of interest to you, showing you some of the opportunities available at school. It is not an exhaustive list and you are encouraged to find additional enrichment opportunities outside of school.

Is there an enrichment club or activity that you would love to get involved with that isn't currently being offered, please email Mr Johal with your recommendation or suggestion.
